DESCRIPTION : This is a startup where we are making open market place for vegetables and fruits and groceries.In this startup I am working on the android app for the open market place. Here I am making various activities in the android app. In this the user can come and order his vegetables and those vegetables will be delivered to them.
DURATION : 3 months

COMPANY NAME : Indiamart Intermesh Limited
DESCRIPTION : This is an online market place where sellers and suppliers find buyers of their goods. Here I have worked on the creation of Company pages creating a catalog for various sellers on mobile site. I have also worked on react-pwa of the Indiamart mobile site. Here at Indiamart we have transferred Indiamart seller side to react-pwa.This can be accessible from:https://m.indiamart.com/enq
Now with more time we have recently launched search pages of indiamart on PWA. With this we have seen reduction in page load time from 3 secs to 789 ms. This has im[proved conversions to a great extent. This page URL is: https://m.indiamart.com/isearch.php?s=shoes
Apart from this currently we are working on service workers for such pages too so can we can give offline experience to the user.Apart from this I have also worked on SEO technologies where we have implemented Structured schema on our pages to improved visibility on google. This has increased traffic on our site from 3lac to 5 lac.
DURATION : 15 months
